City Code Section(s) Requested to be Amended:

Please explain why the existing regulations are in error, are no longer appropriate by current development trends or obtain an omission related to a specific land use or development method which renders a hardship for the applicability of these regulations City-wide.

Please provide a general proposal for the amendment to the City Code Section(s) stated above which you believe will result in improved regulations for all the residents of the City of Raleigh and its Extraterritorial Jurisdiction.
